

MLUG
Midlands LabVIEW User Group

Wednesday 10th February 2021

It is our first MLUG of 2021 and we continue to find ourselves needing to operate as a virtual event! So, wherever you are in the world, come and join us for a great range of speakers and discussions related to LabVIEW.

If you can't make it then just subscribe to our YouTube channel and you can watch it back at your leisure.

We will be online for this UG so [sign up](#) to ensure that you know the details!

Speaker Programme (subject to change)

13.00 Welcome & Introduction

Fred Niemelä (Niemela.tech) – **The concepts of Synthetic Instruments**

13.45: Matt Pollock (NI)- **Keeping Software Projects As Simple as Possible (But No Simpler)**

Comfort Break

14.45: Leah Edwards, Adrian Cubillo, Luis Noites & Petru Tarabuta – **MLUG Coding Challenge Review**
